FROM ANN SUNDBERG

- There is a new locally owned business in town called Harvest Cycle organized by the founder of the Alliance for Responsible Transportation (ART). They will deliver organic produce from Bill Pischer's local organic farm "Jessica's Stand" by bike to your house. The cost is significantly less (\$8 per person) if a group of ten people collect their baskets at a central location. Earthcare committee supports accepting a delivery at the Meeting House on Saturday evening so Friends could pick up their basket of organic produce on Sunday Morning. 25% of the \$8 fee goes directly to ART a local 501c3 bicycle/pedestrian advocacy group.
